Please send me the best WoW cool sets for the ones who came this far, thanks. Commentaires I got the single file :-P. I downloaded it but when I copied it in the root folder for WoW, it still didn't work. I checked in the Addons folder and there is no Icon folder so I don't know what to do. how did u install icon set? I don't think WoW supports icon set.. since i had to remove it when i reinstalled my game. If you download the font.rar file and extract it, you will see a folder with.ttf extension (Mine is organized this way but it's your choice). I took out the icon.png file and put in the folder where the.ttf file is. TopRankPro Made my day today. I got my WoW CD-KEY and they accepted it! Thank you so much! @Sydney Make sure that you check the box to turn the chat filter on. Commentaires

@Qui Qui Qui Hey Qui Qui Qui did you get your CD-KEY? Commentaires @Namro I just made the thing that you will need. When you get the *.rar file, extract it. Now, just drag and drop the.ttf file to the "WoW" folder (or however WoW is set up to be installed). Then, click on the icon on the Game window, which will bring up a list of your installed files. Drag and drop the.png file on that list of files. You shouldn't have to install any font packs. If you have any problems, just let me know Commentaires @NickBarnard Thanks for the answer! An epic version of Warcraft icon set. All icons have been designed by mean of a pixel rendering software to have a really nice quality. Original Warcraft Style with Age of Empires motif. All icons designed and made in house, as the author doesn't have the skill. For the best results print them in large size and with a good quality inkjet printer. The covers were made by using the original icons and adding a transparent layer, using the

RGB color layer from Photoshop. They were rotated to 90° and to make a nice cover.
