Adobe Photoshop Lightroom Classic CC 2018 7.3.0.10Q: Error encoding the parameters of a WebRequest I got this exception when trying to do a POST request with WebRequest.Create(string url, string postData) "Unexpected character encountered while parsing value: Fatal cerebral venous thrombosis due to hereditary protein C deficiency in a patient with recurrent ovarian cancer. Infection or malignancy have been recognized as important risk factors for cerebral venous thrombosis. Cerebral venous thrombosis, however, has also been reported in patients with deep vein thrombosis without any predisposing conditions and fatal cerebral venous thrombosis has occasionally been reported in patients with cancer. The mechanism of this clinical course has not been elucidated completely and the presence of both cerebral venous thrombosis and other thromboembolic events in patient with cancer strongly suggests a hypercoagulable state induced by the underlying malignancy. We report a case of lethal cerebral venous thrombosis in a patient with recurrent ovarian cancer who had no underlying malignancy but had a decreased serum level of protein C. This patient also developed thromboembolic events in the stomach, lungs, and kidneys. These findings indicate that the patient was in a hypercoagulable state as a result of her malignant ovarian cancer.
