What's new in Aurora: A Child's Journey:

Through Cancer An enchanting biography of an extraordinary child The author of this beautiful book, Christina Paolini, allows her guardian angel to take center stage, while she follows in Aurora's footsteps, a journey we share through the eyes of her. We will go on Aurora's journey in this work, from feelings to fears, and then we will come back to the future we had to jump into and travel throughout life all the way to her last days. Now a true story told and inspired by the author herself, Aurora: A Child's Journey through Cancer, enables us to delve into the completely wondrous life of a child born with cancer who also became a real-life heroine for her parents. Christina Paolini would have us believe that she was an ordinary girl before her first operation, a sacrifice to help her baby brother, but what she is not is ordinary. She has a bigger mission, she has to save herself from the seriousness that her family was probably thinking of going through, because when she was born in 1995, her parents and their community of friends all had the impression that she was just going to be another girl. She was their only daughter, there was no doubt that she was the most beautiful girl in the world, and she would grow up to be the wife and mother of a great future with a happy family for themselves. They were all sure that she would only go through the normal ups and downs of childhood. The family knew that she was going to be sick, but they knew this was just usual, they knew how a kid's body grows and gets stronger, they knew that they were going to treat her the best way they possibly could. They felt like even though she was going to get sick, she was the ordinary one. She didn't deserve an ordinary life, she deserved the very best. She deserved anything they had. They weren't just going to let her go through her life suffering and crying, they had to give her everything she deserved. CHRISTINA PAOLINI Christina grew up in a loving and healthy family, with her parents and her little brother Serge. Her English can get a little unconventional, but she still sounds like a kid who was having fun. When Christina was born, her father, Alexander, and her mother, Marie-Louise, were determined that nothing would stop her upbringing from being the happiest it could be. In the façade of high-end fashion houses, they began developing all the habits and ideas
