and structural engineering models. AutoCAD also includes modeling tools for creating 3D geometry, topology, and surface geometry. Plots Plotting applications are provided in AutoCAD for plotting of 3D views of models, surfaces, and coordinates (plot points). Plot managers Plot managers allow for the manipulation of points, lines, polygons, and surfaces. Plotting libraries AutoCAD supports a number of library facilities, including plotter libraries and plotter drivers, which are components of the plotting infrastructure. Plotter libraries are used for the creation of plotters and plotter drivers allow for the communication between AutoCAD and these external devices. Rendering AutoCAD has extensive rendering capabilities. It supports polygons, lines, circles, fills, and effects, allowing one to create object-oriented 3D graphics and render visualizations of design information. Surface design The company's Surface Design feature provides for the creation of surfaces (solid, shell, or curve) by combining lines, arcs, circles, and splines. 2D and 3D drafting Two-dimensional and three-dimensional drafting and design applications are provided in AutoCAD. These applications allow the creation of two-dimensional and three-dimensional drawings. Chapter formats AutoCAD supports chapter formats, such as multi-sheet collages, two-dimensional notes, three-dimensional notes, and one-dimensional and two-dimensional notes. Data Management AutoCAD supports the storage and retrieval of drawings in a database format. GIS and spatial information systems AutoCAD supports the creation of geographic information systems. AutoCAD can work with a number of GIS systems. These include Esri's ArcGIS, DeLorme's MapWorks, Leaf Geography's MapObjects, and MapInfo's MapInfo. Exports AutoCAD export format is able to export objects and 3D geometry in many file formats. Currently, the following export formats are available: DXF, DWG, GIS, MapInfo, MapInfo Vector, PDF, SVG, Visio, and XPL. Several other formats are based on the export format, ca3bfb1094
