shift to a greater use of cross-platform OSs by Autodesk and third-party developers. Autodesk has introduced a number of API's in support of the transition, the most notable being the discontinued ObjectARX, Object Standard Interface (OSI) and Visual LISP API's. History Autodesk, Inc. was founded in 1982 by Donald R. Shoup, Ken Evoy, and Janos Kramis. Their initial product, called CADKEY, was intended as a CAD standardization program for architects and engineers. Later, the product was spun off as the consulting firm, AutoCAD Activation Code, Inc. Since 1996, CADKEY/AutoCAD 2002 Crack/AutoCAD LT has been a product of Autodesk. In 2007, AutoCAD won the Users' Choice Award for Best Database Product at the Autodesk UBM Awards. Autodesk CAD products are part of a family of Autodesk product lines including Autodesk EcoModeler, Autodesk Revit, Autodesk Inventor, Autodesk Navisworks, and Autodesk 3ds Max. Autodesk acquired Autodesk Media and Entertainment in 2003, including the popular 3D modeling and animation program, MAX. Autodesk Media and Entertainment later was renamed to Autodesk Media and Entertainment and is responsible for a number of additional Autodesk programs including After Effects, 3ds Max, NUKE, Flame, and the direct to DVD conversion software, ACDSee and MediaCAD. Autodesk released several CAD software products for the P2P game system, the Multiplayer Software Interface standard. These included MultiGP, MultiPlot, MultiStudio, MIP and MIPserver. MIP is a discontinued P2P graphics server used by designers working in the fields of architecture and engineering to design and share BIM models. Autodesk then ceased all work on the P2P game system and all development of products for it has been halted. Autodesk also acquired AECbytes in 2010 and discontinued AECbytes in 2013. The Autodesk Library (or Open library) is a service which provides access to ca3bfb1094
