In the fantasy world of Dungeon Lord which has had the attention of gamers, player-driven events take place, deepening the story. In Dungeon Lord, you shape the game experience in the way you want through combat, quests, movement, and hunting. You can challenge bosses, go on expeditions, and search for resources. The Dungeon Lord Editor is the only tool from which you can create quests, customizing monsters, and NPCs, and create maps with towns. You can even create your own custom patterns to make monsters. (2) Some stat changes for the monsters that were introduced in the Prologue. Please try the new update, because there will be more stat changes for monsters etc. The new update v1.1 will be released in ~6 days (June 10), so stay tuned! How to pause animation using the Property Animation? I have a class called Planet: private float \_radius, \_rotation, \_circumference; public void Move(float time) { float \_duration = time; StartCoroutine(Rotate(time, 100f)); } I made StartCoroutine to call function Rotate. In code, the Animation/AnimationPlayer should set the rotation to 0 after 3 seconds but without calling StopCoroutine. I've tried using this code but it doesn't work: planetCollider.GetComponentInParent().rotation = 0f; How to do this? A: You have to use AnimationPlayer's OnFinished method to stop animation before you want it to be static. // Play animation AniPlayer.Play(); // Pause animation AniPlayer.Pause(); // Stop animation An

From the main character description page: "You are Tarnished, son of Delnir, the Wolfenbane. Upon the verge of death, you are granted with the power of the "Elden Ring" by the power of the "Wise-One," a being who has the power to give or take life. With the Elden Ring, you will wield the power of the "Elden Lords." In a world where the only way to truly exist is to earn the "Eden's Blessing" and die, the Elden Ring is the only thing that remains. A long time ago, the world was bereft of power. The Elden Lords had been slain, and with them, the power to exist. The Wise-One brought forth the Elden Ring, a ring given to the leader of the "League of Dawn." This "League" was a group of brave and wise individuals created to be entrusted with the power of the Elden Ring, and were known as the "Elden Lords." However, their rule was short, and the Wise-One transformed the world with the power of the "Elden Ring". After a long period of time had passed, the Elden Ring was corrupted, and the "Elden Lords" were slain. The new group that was to be entrusted with the power of the Elden Ring was mercilessly slaughtered. Faced with the situation where the power to exist is no longer within their grasp, the "League" fought to gain possession of the power. They thought of themselves as the "Wise-One"s chosen ones, and so they were entrusted with the power of the "Elden Ring", but when all this was unveiled, the "League" had become a mortal danger to the Wise-One's chosen ones and the world as they knew it. However, before they could be completely annihilated, they, too, were slain and "the Wise-One" transformed the world. As a last act of his mercy and redemption, the "Wise-One" bestowed the power of the "Elden Ring" upon one of his chosen ones, who would set forth as the leader of the "League of Dawn", and they would carry with

[The effect of nitric oxide donors on the heart of experimental hibernator and nonhibernator rodents]. The effect of s-nitroso-N-acetyl-penicillamine (SNAP) and sodium nitrite on the ischemic heart was investigated in rats with hibernating and non-hibernating tendencies. The changes in the activity of the heart under in vivo conditions of experimental tests were also determined. The results showed that the in vivo inhibitory effect of SNAP on the ischemic-reperfused heart of hibernating animals was greater than that of nonhibernating animals. The studies of the heart of hibernators and nonhibernators under in vivo conditions confirmed a significant difference in the characteristics of hibernators' and nonhibernators' hearts subjected to ischemia-reperfusion injury. The results suggest that the antioxidative system of a hibernator's heart is more sensitive to a local ischemia-reperfusion injury than that of the nonhibernator's heart.Authorities in Russia have revealed a shocking record for the country's domestic security. Senior Russian police officers released police data on Wednesday showing that nearly one-third of homicides in 2018 were committed by other criminals paid to kill someone, known as "erasers." Most of the 254 "erasers" arrested last year worked for organized crime gangs or corrupt officials in pay to kill deals. Another 32 percent of the people killed were "purged" from criminal groups. And 43 percent of the "erasers" arrested last year were hired to kill "unpopular" people, according to the government data. Police also said nearly 39 percent of the double digit numbers of rapes were committed by men employed by crime groups to protect local officials and other "powerful people." Authorities have found the men can be introduced as pizza delivery drivers, barbers or foreign exchange students. The data also shows that more than a third of robberies committed by organized criminal groups last year were carried out for protection. The Russian Interior Ministry and Federal Investigative Committee said the data provides "an interesting insight into the capabilities of criminals
