Overview

The runes of the Elden Ring are no longer reflected and scattered across the Lands Between. Each Rune is found in four different fountains, whose locations were scattered throughout the Lands Between and will grant you access to the surrounding Rune Rocks. The four fountains, Whirlwind, Open, Furnace, and Tower, can be visited in order from right to left, leading you to the Rune Rocks along the way. To embark on this path of legend, it is crucial to gather the four Rune Rocks and become an Elden Lord. Then, the legendary Elden Ring will be returned to the four fountains, where it was forged into the fabulous material of the Lands Between. In doing this, you will surely bring about the awakening of the Elden Ring. The Elden Ring in the four fountains is the key to your destiny.

DongWhan, August 21, 2019 Overall performance: Graphics: Voice Acting: Content: (The game looks the part, bringing back some classic RPG elements, while looking neat and polished, but there's not a lot of surprises, with only a few interesting new elements and mechanics, and combat feels dull and a bit repetitive.) Halfwayrn, August 21, 2019 Overall performance: Graphics: Music: Voice acting: Content: (while the game has fun visuals and charming music, the story is kind of shallow and the gameplay itself is too repetitive for an RPG to be considered good for you at all, which ends up making combat feel rather uninteresting) Miyat, August 21, 2019 Overall performance: Graphics: Voice Acting: Content: (seems to be very similar to Demon's Souls in terms of both story and gameplay, and while I don't have much of a negative opinion about Demon's Souls, as it ended up being one of the best games I've ever played, I don't think that I'm going to enjoy this game either, due to it feeling much more generic than Demon's Souls) Thorbe, August 21, 2019 Overall performance: Graphics: Voice Acting: Content: (Starts out slow, but once you get in the swing of things, the game becomes quite a bit of fun to play, with enough complexity to keep things interesting, but not enough that it ever gets overwhelming, as the lack of tutorials makes things a bit of a chore at the start, but once you get in the swing of things, the game gets quite a bit of character, with parts of the story that are interesting, and the gameplay itself is a bit of a stand out for an RPG, as it's a bit more action oriented than the usual RPG fare, but makes up for this by giving the player some real powers over the characters, such as building up meter to charge a big attack with a bonus, as opposed to simple attacks that can be charged at any time, and even removing abilities when they're not necessary) Shane, August 21, 2019 Overall performance: Graphics: Voice Acting: Content: (the new fantasy action RPG looks nice, with a competent and professional bff6bb2d33
