With “HyperMotion Technology,” you will be able to experience the sensation of playing with new reflexes. Most attacks happen in a split second, and you are placed in a situation where you must react quickly. All of a player’s movements are influenced by other players’ actions and you will need to detect these changes in order to dodge an attack. You will use new tactics and strategies to create space and move the ball around the pitch. You can play with total freedom and use any tactic you like, choosing from more than 750 moves to create a unique game experience with your preferred style of play. With more than 12,000 animations, 25 new celebrations, 4,000 goal celebrations, and 5,000 new goal celebrations, you will be in control of your player throughout every pass, tackle, run or shoot. Behaviors and reactions vary for every celebration and goal of each team. “HyperMotion Technology” will give you complete control over your game in those moments when you need to make the most precise decisions. Highlights Seamless Player Controls You will experience the sensation of playing with new reflexes. You can use your player like never before, performing tactical and high-difficulty plays with pinpoint accuracy, and attacking moves to set up the best opportunities for your team. Unrivaled Player Intelligence Playing with Fifa 22 Serial Key is completely different from the way that you have played before. Your player will automatically read the most important situations you face throughout the game, and will then choose the best tactics to solve them. You will be able to create a unique playing style with various tactics. Total Freedom A key component of this new gameplay is giving you full control over your player’s actions. You will be in control of everything throughout the game, making each and every decision to take the ball, pass it, shoot, shoot, pass and tackle feel natural and enjoyable. Intuitive Skill Training FIFA 22 introduces “Skill Stick” technology, enabling you to play solo or in 3v3 matches with no additional hardware required. With no controller, you will be able to learn new tactics and master the game like never before. Improved Player Physics FIFA 22 players have received a complete overhaul of their artificial intelligence. They have gained precision and intelligence in all areas of the game and are fully functional on any pitch

Steve Nicol Steve Nicol spent 17 years as a professional footballer as a player, coach, and member of two Championship winning teams at Arsenal. He started his coaching career at Arsenal and spent 6 years as a player/coach with the reserves before moving back to the first team as Assistant Manager in 2001. Steve has also been a member of the England National Team with the Under-21s. What makes FIFA stand out amongst other football games? With every game, we strive to create the most authentic football experience. In FIFA we deliver a whole new level of physics-based gameplay, delivering the most realistic tackling, the most authentic ball control, and the finest graphics our industry has ever seen. But it's not all about the pretty graphics, there are also some highly important gameplay elements that we have really nailed. We have revolutionised player control, with impressive new dribbling, and unified movement all over the pitch. This allows players to be even more creative on the pitch by giving them a multitude of ways to move the ball
