Features New "HyperMotion Technology" combines multiple player, ball and environment data sets to influence gameplay. Players' attributes and movements are realistic with precision and lifelike physics driven from the smallest micro-movements that make up a real match, thanks to new on-ball analysis and player-environment collision that captures every technical nuance of the footballing art. Simplified Controls – Play, Shoot and Interactive Features all stay the same, but your options for goal control and ball movement have never been more varied and precise. Master every part of a match with controls that feature preset button combinations. Plus, real-world player attributes such as pace, acceleration and skill leads to better, more authentic playing styles. Dynamic Defending – Players will be ready to make dynamic decisions and react to offensive tactics, manoeuvres, and decisions. Motion-based animations, new defensive AI and formations mean each game is unique. New Tactical Visualisation – Tactical and match overviews provide context and focus on the core aspects of each game. Once you're in the thick of it, your situation is clearer with a new tactical overlay. The pre-match setup and highlight reel further help you to understand the context of a match. New Control Schemes – Play, Shoot, Interactive Features, Tactical Analysis and more – the focus on your play, your shot, your game is never lost. New Player Performance – Play to your strengths with a brand new "playmaker" tag for improved passing, shooting and dribbling (refreshed player attributes). New Short Defensive Control – Make a run into the box or corner, and your defenders will defend with balance, instead of giving the ball away. New Attacking Options – Crosses, second balls, chip-ins, all have new attacking moves that make you more unpredictable. New Goalkeeping Attribute – Timing and anticipation have never been more crucial. New Shot Quality Control – Accuracy, composure and ferocity give you the ball-to-wall shots that are just right. New Ball Physics – The new ball physics – based on all football grounds, from pitch to park – are pre-tuned to react to the game environment in footballing perfection. The Midfield Engine – The new mid-engine sports the same complex algorithms as the core engine and it's completely redesigned to handle the increased scope and complexity of the new gameplay. For the
