## R4i Advance Revolution V16 Firmware

R4i V16 firmware can be used for a multitude of DS Revolution . R4i V2 . "Its small in size, fast and effective." £8.99 £34.99 £195.98 (approx.2 . R4i.Q: I want to remove one restriction from Vuex, so that it is not possible to refresh the page until a button is pressed I want to remove one restriction from Vuex, so that it is not possible to refresh the page until a button is pressed. A: Vuex doesn't have any of those kinds of restrictions. It's really just a store for data and state, the views and components are just tools to manipulate the data/state with. I'm assuming that in your edit, you mean the user shouldn't be able to refresh the page without pressing a button? If that's the case, it'd be up to the component that's updating the data/state on the page. For example, in your case, it would be the search term form: let self = { state: { searchTerm: " }, getters: { searchTerm: state => state.searchTerm } }; d0c515b9f4
