But it should be realistic and smooth at least when i look at it from far away. I already tried to use high resolution texture, in some cases it seems to do the trick, but in my case it is not sufficient. What am i doing wrong? I think it's a good way to express "uncover" or "climb up" or "emerge", and is used in some other translations for LSJ. Incidentally, I think that it's bad style in a book to refer to books by the number of pages that they contain, as though that alone can imply anything about them, and in fact that's just a lie if you try to figure out the size of a text file from the number of pages it consists of. And, in this usage, a "reading" is not always "for you to read", but can mean "when you're reading it". In fact, for "reading", it's much more common to use "in". But a word of warning: it's also the primary sense of the English word "retell", to which it is etymologically related. I'm not aware of any dictionary usage of "been" for this sense, but it seems to occur in other dictionaries. It seems to have evolved out of two American English usages. You can spend the morning sorting out a garage, but you can spend the day sorting out a garage.18F-FDG PET/CT in pulmonary paraganglioma.
