Ask HN: How do you validate assumptions? - pointrak How do you validate business assumptions, and not just your own as a developer? Can you explain the methodology you use when validating your assumptions? ===== jimfl The best way to validate assumptions is to be sure you understand them. As soon as you are clear on what they are, and what data should support those assumptions, and why they are important, you will be able to determine whether they are valid or not. ----- philiphodgen I'm a developer. You validate them by doing a project. Your team or perhaps a brilliant fellow merger and acquisition or big data fortune pool comes to you with a problem and a bunch of open space "cost this" buckets. You solve the problem. You deliver a good project. Validation is discovered. ~~~ pointrak Thanks! Q: Change a record in database using EF I have an application written in VB.net, and I use ASP.net, and I have a class called "Employee" which should have one property called "empid". I use the entity framework, and I save this "Employee" in my database using command (insert into TableName select @Person). I also have
