In the procedure and circuit arrangement according to the invention, the smart card and the terminal apparatus comprise an integrated circuit. Existing smart cards do not have any information about the terminal apparatus with which they are being used. When a card is used in a terminal apparatus, it must be identified and registered in the terminal apparatus. For that purpose, it is known to add a permanent or semi-permanent identification code to the smart card. The terminal apparatus is assigned a code which is secret and known to the person handling the smart card. By means of this code, the terminal apparatus can identify a user of the smart card. In addition, it is known for the terminal apparatus to be provided with a contactless interface for contactless input of information and data to the terminal apparatus, such as for example, input of a destination telephone number. In that case, a contactless interface is used which uses a radio-frequency (RF) transmission, for example, according to the ISO Standard 14443. It has been established that, when a smart card is used in a terminal apparatus, the smart card must be registered in the terminal apparatus. For that purpose, it is known for the smart card to transmit the secret code of the terminal apparatus to the

Page 199 The last time Michele Bachmann praised the work of Joe Arpaio, she received some unexpected criticism from Rick Perry. "I salute the courage of Sheriff Joe Arpaio and his outrageously courageous force," she said during her debate last month. "I salute him for his efforts to enforce the law and to restore respect for the rule of law." Arpaio was a vocal critic of the President's policies and regularly portrayed Obama as a "socialist" and "radical." At the time of Bachmann's remarks, his campaign website prominently displayed a fundraising appeal to donors in which he said he was on track to win reelection. But Arpaio's fervent anti-Obama rhetoric has softened in recent months. He's endured personal blowback from the president, as the sheriff was forced to temporarily halt immigration patrols after he made derogatory remarks about a prominent Hispanic lawmaker. And recently, Arpaio has sought to rehabilitate his image as a lawman who fought to preserve the rule of law. "I've always said that the Constitution is the law of the land, and I can't see that being changed by the federal government," Arpaio told Breitbart's Matthew Boyle in April, adding that he believed the government was encroaching too much on the power of local law enforcement.
