about streaming videos can be found in the Streaming Videos on Steam FAQ. ReviewsI first saw Containment Protocol at Rezzed this year when the large banner showcasing its simplistic, beautiful art style immediately caught my eye. Its difficult to describe in ordinary genre terms, but its close to a survival/exploration game. You remotely control a quad copter exploring an abandoned scientific facility, only able to see via its lidar scanning the surroundings. Its atmospheric to the maxsounds echoing in empty corridors, clinical beeping coming from the automated defenses of the facility.Rock Paper ShotgunTaking gaming back to simple

**NEAR DEATH is a tough, tactical survival horror game where each player becomes stranded alone in the North Pole during the worst snowstorm in history. With little to no food, shelter, or communication, you must outlast the storm, using the environments to your advantage and the ever-changing, physics-driven weather patterns to play your way out. The world is broken into small, procedurally-generated areas in a “grid” configuration. Different weather patterns will affect each room differently, such as snow accumulation and freezing rain,**

---

**while snowmobiles, snowplows, and igloos can be used to provide shelter and warmth. In each area, there are multiple possible ways to survive and find shelter, but only your wits and logic can tell you which will keep you alive. As the storm continues to rage, you will struggle to avoid hypothermia, hunger, and the inevitable. With your environment serving as the only constant, you must use the only tool at your disposal: your mind. Key Features:**

- Physics-driven gameplay with 5 unique and randomly-generated weather patterns**
- A successful expedition requires careful**

---

**planning and utilization of the environment • Unique character progression system that gives you skill points, weather resistance, and kit upgrades with every kill • Crafting gear and provisions is possible in a small subset of the areas, with goal-based upgrades • Long-term survival is possible using a combination of hibernation and food hoarding • The North Pole has locked doors and generators to prevent players from ‘teleporting’ into areas they should not have access to • A wide variety of rooms to explore, including small spaces, rooms with locked doors, and areas with**
