Take this from the library! Fundamentals of renewable energy processes.[Aldo Vieira da Rosa] -- Energy sustainability and security are at the forefront. The topic of renewable energy sources (RES) is very relevant at the present time. In this regard, I would like to draw attention to the book published by the Alpina Business Books publishing house and dedicated to the problems of renewable energy. In our opinion, it will be very useful to those who want to better understand this subject. Take this from the library!
