Lecture #11DAE First Course Applied Mathematics (Electrical, Mechanical, Civil) Book Code (Math-123 ... (mathematical) foundations of electrical engineering Download 6.51 Mb 5.5. stress state in a point with concentric spheres Consider the stress state at a point with concentric spheres, where a , b are radii. Let us denote by A the radius of sphere centered at point c and radius r centered at point c . Suppose that when the spherical force fields are superimposed on the considered section of the medium, a spherical force field arises at point c (Fig. 5.15).
