NeoRAGEx 5.0 is a new version of Neo RAGE's Neo Geo ROM emulator for Windows, MacOS and LINUX. You will find 181 games in one package. In addition, the program contains an emulator for downloading games directly to your computer's hard drive, which is very convenient and allows you not to wait until the game is loaded from external media.

And the ability to create and burn downloaded games to floppy disks is simply invaluable with NGA. NEO GEO ROM is a video game system format developed by Neo RAGE. This format allows you to burn almost any game from game consoles, such as Super Nintendo or NES, to hard drives.
