Explore a new world of adventure and excitement in Dynasty Warriors 8 Empires. The moment you pick up the sword, you can.. id2office v2 1. crack beerQ: How to merge cells in excel to gridview based on date? i have several cells with dates, with the format "m/d/yyyy", one cell for each row. I have to filter the data in the table based on this date. First i separate the dates and i build a new table with them, then i place the dates according to the range, each row with three cells, left, right and previous month, see the pic. I have to generate another table with a row for each month, and the headings should be the dates, i want to do this with a loop. These are the dates in one of the columns: 1/17/2010 5/13/2010 1/15/2010 2/21/2010 6/15/2010 1/21/2010 2/1/2010 This is what i have now: Private Sub Lista_Nueva2() Lista_Nueva2.DataSource = Nothing With Lista_Nueva2.DataSource .Clear() .Columns.Add("Año", "Año") .Columns.Add("Mes", "Mes") .Columns.Add("Egreso", "Egreso") End With Lista_Nueva2.ReadOnly = True Dim xlApp As Excel.Application Dim wb As Excel.Workbook Dim ws As Excel.Worksheet Dim r As Long Set xlApp = New Excel.Application c6a93da74d
